

## **DC IT Safe 56 HE / 62 HE**

The modular compact data center for the security of your IT infrastructure.

-  Highly available and secure IT protection
-  Compact on less than 2 m<sup>2</sup>
-  Flexible and modularly expandable
-  Air conditioners designed for continuous operation
-  Ready for immediate use, available from stock

## **From industrial customers to healthcare and other industries: Wherever data is critical.**

The DC IT Safe is suitable for small and medium-sized companies, companies with decentralized structures (logistics and industrial companies with many locations, or chain stores), but also in the healthcare sector for medical facilities, larger group practices or hospitals. Benefit from space-saving all-round protection for your IT infrastructures.

You can determine the location of your Micro Data Center - a complete and redundant data center on only 2 m<sup>2</sup> - completely independently of the spatial conditions in your company. Our Micro Data Center can be installed very well in industrial halls or basement floors and protects your data reliably even under difficult conditions.

### **Extended basic protection against physical hazards**

**Fire protection**

**Burglary protection**

**Explosion protection**

**Water and dust protection**

**Protection from debris load**

**Protection against vandalism**

**Protection from radiation**

**Noise protection**

### **Protection against corrosive gases**

## **The modular Micro Data Center**

### **DC-ITSafes grow with your requirements**

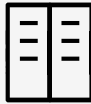

- Extremely robust and secure for the protection of IT infrastructure and servers on premises.
- The Micro Data Centers are fully redundant data centers on only 2 m<sup>2</sup> area with extremely short assembly time.
- The IT Safes are modularly expandable and can be interlinked. So you can easily equip a small IT room with several racks.
- DC IT Safe is available in two heights (56 and 62 U), in various designs and different cooling capacities.

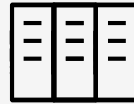

## Execution types

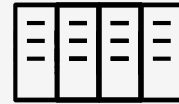

Single Safe

Duo Safe

Triple Safe

Quattro Safe

## Equipment options

- Bulkhead systems
- Access control with and without keyed alike
- Socket for DC IT Safe
- Rack system and bulkhead
- Cooling
- Early fire detection and extinguishing system
- Early fire detection

- Monitoring
- Electrical Management
- UPS system (Uninterruptible Power Supply)
- Socket strips / PDU strips single-phase

## Technical Details

Width	1452 mm
Height	2185 mm
Depth	1470 mm
<b>(Other sizes on request)</b>	
Profile frame (inch: mm)	19": 800 x 1200
HE Quantity Horizontal	44
HE Number Vertical	12
HE Number Total	56
Tare weight (kg)	approx. 1100
Maximum load capacity in 19" range (kg)	1000
Air conditioning	See equipment options
Patented, internal click mounting technology	x
Self-locking automatic multipoint locking system with solid swing bolts and sealing elements	x
Number of soft bulkheads (optionally hard bulkhead or fire protection sleeves)	4
Possible positioning bulkheads	in side, floor or ceiling elements
Possible closure options	See equipment options
